

Living Healthy Washington County

Logo Usage

Primary Logo

To accommodate a variety of needs, the primary logo is available in two formats: horizontal and vertical. The logo should always be readable and should not be altered in any way. The primary logo should appear on the front cover of all printed and electronic materials produced by Living Healthy Washington County. All materials should also comply with the Washington County Style Guide.

For projects funded through SHIP, the following statement must be added below either logo, in Calibri font:
Supported by the Statewide Health Improvement Partnership, Minnesota Department of Health.

Horizontal Logo

Vertical Logo

*Example:
Logo + SHIP Language*

Supported by the Statewide Health Improvement Partnership, Minnesota Department of Health

Logo usage: SHIP partners

SHIP partners are required to request approval on all communication materials related to a SHIP-funded project. Partners are encouraged to use the Logo + SHIP language as outlined above. If partners prefer a different logo layout or structure, please work with the communication specialist to make any preferred adjustments.
